

One configurable engine. Many compliant industries.

Most QMS vendors built one product per industry. We built the engine that produces them — and because every step is verifiable, the platform naturally becomes a trust marketplace.

THE ARCHITECTURE · CONFIGURABLE LAYERS, MULTI-TENANT, MULTI-VERTICAL

INDUSTRY PACKS

Configuration, not code

Pharma EQMS · Med Device · Food / HACCP · Auto IATF · ESG · Construction · drop in a YAML, ship a vertical

AI AGENTS

31 grounded · pluggable LLM

Wave 1 inline assists · Wave 2 cross-module · Wave 3 governance · audit-agents · public-data fusion

TRUST

Verifiable everywhere

21 CFR Part 11 e-sig · SHA-256 hashes · ALCOA+ trail · blockchain anchoring on roadmap

WORKFLOW ENGINE

State machines · roles · approvals — the core IP

Universal workflow definitions · milestones · SLAs · cross-tenant routing

PLATFORM

Multi-tenant SaaS · serverless

MongoDB Atlas · Vercel · 92 routes · 165 models · per-tenant module flags

01 · ENGINE

A platform, not a product

New vertical = configuration. Incumbents re-platform per industry.

02 · AI NATIVE

31 agents wired in

Grounded + audit-trailed from day one. Not a retrofit add-on.

03 · PLUGGABLE LLM

\$0 default AI cost

Free Gemini default. Swap to OpenAI / on-prem per-tenant.

04 · MARKETPLACE

Trust by design

Every step verifiable → cross-company workflows ship native.
