

Hawkeye EQMS · Module Feature Guides — Master Index

14 modules, comprehensive per-module guides. Each guide has 9 sections: Overview · Pharma-vs-Hawkeye gap analysis · Personas · Click-by-click feature catalogue · Lifecycle walkthrough (with expected DB state per step) · AI map · Regulator-trace matrix · Test results · Roadmap.

Feature Guides

Module	Pharma purpose	Compliance	Status	Stats	PDF
Deviation / Non-Conformance v1.0	Capture, investigate, disposition and close any planned or unplanned deviation from a specification, SOP, batch record, or quality-system requirement. Drive a CAPA when the deviation is systemic.	ISO 9001:2015 §10.2 (non-conformity & corrective action) · 21 CFR 211.192 (production record review	12 MET 1 PRT 1 GAP	13 features 5 AI	298 KB
CAPA v2 — Corrective & Preventive Action v1.0	Formalised corrective + preventive action lifecycle. Intake → triage → investigation → RCA → action plan → implementation → effectiveness review → closure. 5 mandatory approval gates.	ISO 9001:2015 §10.2 · 21 CFR 211.192	15 MET 1 PRT 0 GAP	15 features 5 AI	514 KB
Document Control v1.0	Author, review, approve, publish, supersede and withdraw controlled documents (SOPs, work instructions, policies, specifications, protocols, report templates, guidelines).	ISO 9001:2015 §7.5 (documented information) · 21 CFR 211.180	8 MET 1 PRT 2 GAP	8 features 2 AI	584 KB

Module	Pharma purpose	Compliance	Status	Stats	PDF
		(records & reports)			
Risk Register (FMEA) v1.0	FMEA-style hazard register. Capture process-step risks (failure mode → effect → cause), score with Severity × Occurrence × Detectability = RPN, add mitigations until residual risk acceptable.	ISO 9001:2015 §6.1 (risk-based thinking) · ICH Q9 (R1) Quality Risk Management	9 MET 1 PRT 1 GAP	6 features 2 AI	341 KB
Management Review (MRM) v1.0	Periodic top-management review of QMS performance per ISO 9001:2015 §9.3 — audit results, CAPA status, deviations, complaints, supplier performance, resource adequacy, improvement opportunities, decisions, action items.	ISO 9001:2015 §9.3 (management review) · 21 CFR Part 11 (e-signed minutes)	8 MET 1 PRT 1 GAP	7 features 2 AI	438 KB
Training Records v1.0	Track assigned, in-progress and completed training for every employee. Auto-assign 'Read and Understood' records when SOPs publish. Capture competency assessment + knowledge-check results for audit readiness.	ISO 9001:2015 §7.2 (competence) · 21 CFR 211.25 (personnel qualification)	7 MET 1 PRT 1 GAP	6 features 2 AI	407 KB
Change Control v1.0	Control + document any proposed change to an approved process, material, equipment, specification, or procedure. Drive impact assessment, multi-level approval, implementation, effectiveness verification.	ICH Q10 §3.2.3 (change management) · 21 CFR 211.100	9 MET 1 PRT 0 GAP	6 features 1 AI	377 KB
Complaint Management v1.0	Capture, investigate, link to CAPA, and close customer complaints. Determine MDR (Medical Device Report) reportability. Track regulatory reporting timelines.	ISO 9001:2015 §10.2 · 21 CFR 211.198 (drug complaint files)	8 MET 1 PRT 0 GAP	6 features 2 AI	326 KB
Batch / Manufacturing Records v1.0	Capture the full manufacturing record for a single batch — BOM actuals, in-process tests, yield, equipment used, linked deviations — then drive QA review to final disposition (release / reject / quarantine).	21 CFR 211.188 (batch production records) · 21 CFR 211.192 (production record review)	9 MET 2 PRT 0 GAP	5 features 2 AI	360 KB
Equipment / Calibration v1.0	Track every GMP-relevant asset through its calibration lifecycle. Auto-escalate OVERDUE items. Failed calibrations trigger	ISO 9001:2015 §7.1.5 (monitoring & measuring resources) · 21	9 MET 1 PRT 0 GAP	6 features 2 AI	371 KB

Module	Pharma purpose	Compliance	Status	Stats	PDF
	QUARANTINED status so the asset is blocked from production use.	CFR 211.68(b) (equipment qualification)			
Supplier Pre-Qualification v1.0	Screen a new supplier before scheduling a full audit. Capture initial risk band, regulatory standards, product categories, checklist compliance. Output: APPROVED / CONDITIONALLY_APPROVED / REJECTED with validity window.	ICH Q10 §2.7 · 21 CFR 211.84 (component qualification)	7 MET 0 PRT 1 GAP	6 features 1 AI	365 KB
Internal Audit (8-phase lifecycle) v1.0	Run a supplier or internal audit through 8 sequential phases — INITIATED → PREP → PLANNING → EXECUTION → FINDINGS → CAPA → CLOSURE → SURVEILLANCE. Each phase owns specific artifacts. Role gates enforce buyer/supplier/aud	ISO 19011 (auditing management systems) · ISO 9001:2015 §9.2	10 MET 0 PRT 0 GAP	9 features 4 AI	357 KB
Audit Request / RFQ (marketplace audit flow) v1.0	Buyer posts an audit RFQ. Multiple auditor orgs submit quotes. Buyer shortlists + awards. Awarded quote converts into a full audit request that enters the 8-phase audit lifecycle.	ICH Q10 §2.7 · ISO 19011 §5.3	7 MET 1 PRT 0 GAP	6 features 0 AI	332 KB
Design Control (medical device) v1.0	Track a medical-device design through 8 phases (Planning → Input → Output → Review → Verification → Validation → Transfer → Changes). Maintain the Design History File (DHF). Link to Risk, Change Control, CAPA.	21 CFR 820.30 (Design Controls) · ISO 13485:2016 §7.3	12 MET 0 PRT 0 GAP	6 features 1 AI	336 KB

How to use

- **For demo presenters:** open the relevant module's PDF and walk the 'Click-by-click feature catalogue' section page-by-page with the customer.
- **For QA reviewers:** jump to the 'Standard pharma EQMS vs Hawkeye gap analysis' (section 2) for quick coverage assessment, then 'Regulator-trace matrix' (section 7) to verify each lifecycle state cites the right CFR / ISO / ICH clause.
- **For testers:** the 'Lifecycle walkthrough' (section 5) shows expected DB state after each transition — use that to verify the entity is in the right shape.
- **For developers:** the 'Roadmap' (section 9) lists known gaps with priority labels. Pick HIGH-priority items first.
- **For tenant admins:** the 'AI assistance map' (section 6) tells you which AI agents fire at which states + their token-cost provider — feeds the planned ROI / token-budget tool.
