- 5. Full lifecycle walkthrough — one transaction, end-to-end
- 6. AI assistance map
- 7. Regulator-trace matrix
- 8. Test results matrix
- 9. Known gaps + roadmap

1. Module overview

Module	Complaint Management
Pharma purpose	Capture, investigate, link to CAPA, and close customer complaints. Determine MDR (Medical Device Report) reportability. Track regulatory reporting timelines.
Compliance basis	ISO 9001:2015 §10.2 · 21 CFR 211.198 (drug complaint files) · 21 CFR 820.198 (medical device complaint files) · EU GVP
Hawkeye routes	/complaint-manager (frontend) · /api/complaints (backend)
Hawkeye model file	backend/src/models/ComplaintModel.js
Tenant module flag	modules.COMPLAINT_MANAGEMENT

Complaints follow OPEN → UNDER_INVESTIGATION → PENDING_CAPA → CAPA_IN_PROGRESS → PENDING_CLOSURE → CLOSED (or CANCELLED). isMedicalDeviceReport flag triggers the MDR reportability assessment; requiresRegulatoryReporting gates the regulatory submission timeline. linkedCAPAIds bridges to the CAPA-v2 workspace.

2. Standard pharma EQMS vs Hawkeye — gap analysis

Each row is a capability a pharma QA team would expect from an EQMS deviation module. Hawkeye column shows what's actually shipped.

MET = parity, **PARTIAL** = ships but with caveats, **GAP** = not implemented yet.

Pharma expectation	Hawkeye implementation	Status	Note
Complaint types (PRODUCT_QUALITY / LABELING / PACKAGING / DELIVERY / SERVICE / SAFETY / REGULATORY / OTHER) 21 CFR 820.198	complaintType enum · 8 values.	MET	
Severity (CRITICAL / MAJOR / MINOR / INFORMATIONAL) —	severity enum.	MET	
Source tagging (CUSTOMER / PATIENT / REGULATOR / DISTRIBUTOR / INTERNAL / FIELD_REPORT) —	source enum · 7 values.	MET	
MDR reportability flag 21 CFR 803	isMedicalDeviceReport boolean. cross-module triggers regulatory assessment.	MET	
Regulatory reporting flag + 5-day / 30-day timer 21 CFR 803.10	requiresRegulatoryReporting boolean. /api/quality/regulatory-assessment computes the deadline.	PARTIAL	Add countdown UI + reminder cron
Investigation summary + root cause + assignee 21 CFR 820.198(d)	POST /:id/investigate captures investigationSummary + rootCause + assignedTo.	MET	
Linked CAPA(s) 21 CFR 820.198(c)	linkedCAPAIds[] on the model. Cross-module endpoint creates CAPA-v2 intake with sourceType=COMPLAINT.	MET	
Closure with corrective + preventive action notes 21 CFR 820.198(e)	POST /:id/close captures closureNotes + correctiveAction + preventiveAction.	MET	
Auto-numbered complaint (COM-YYYY-NNNN) GMP traceability	complaintNumber pre-save generator.	MET	

3. Personas + role mapping

Login password for every persona: `EqmsDemo@2026` . Roles drive which API endpoints respond — see Hawkeye `roleMiddleware.permit()` .

Persona	Email	Responsibilities in this module	Lifecycle states they touch
James Thompson Head of QA · complaint owner	qa.head@novex-pharma.demo	Logs complaints from intake (customer service), investigates, links CAPA, closes.	OPEN UNDER_INVESTIGATION PENDING_CAPA PENDING_CLOSURE CLOSED
Marcus Brown Regulatory Affairs · MDR reviewer	regulatory@novex-pharma.demo	Assesses MDR reportability for safety / patient complaints; files MDR with FDA.	OPEN UNDER_INVESTIGATION
Audit Lead Maria auditor · linked-CAPA owner	audit.lead@novex-pharma.demo	Owens the CAPA spawned from the complaint.	CAPA_IN_PROGRESS

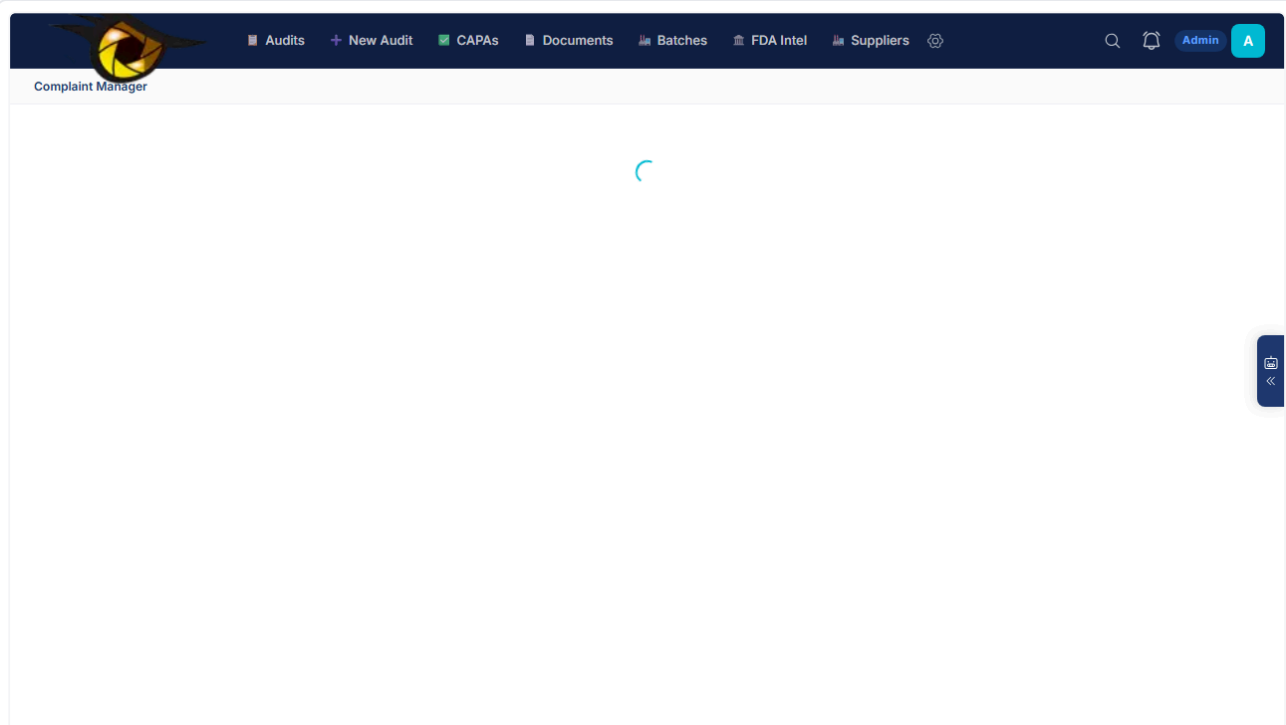

4. Feature catalogue (click-by-click)

4.1 Complaint register

What it does	List with severity / status / type filters + MDR + regulatory-reporting indicators.
Menu / route	/complaint-manager
Available to roles	any tenant viewer
Backend API	GET /api/complaints

CLICK-BY-CLICK

- NAVIGATE** Click 'Complaints' in the top nav
→ Page renders
- WAIT** Spinner clears
→ Rows visible (empty for fresh tenant)

state-screens/complaint-list.png

4.2 + Log Complaint dialog

What it does	Capture a new complaint at intake.
Menu / route	/complaint-manager · top-right '+ Log Complaint' button
Available to roles	any tenant user
Backend API	POST /api/complaints

CLICK-BY-CLICK

- CLICK** Click '+ Log Complaint'
→ Dialog opens
- TYPE** Fill title (1 sentence)
→ required

3. **TYPE** Fill description (full narrative)
→ required
4. **CLICK** Pick complaintType
→ 8 enums
5. **CLICK** Pick severity
→ 4 enums
6. **CLICK** Pick source
→ 7 enums
7. **CLICK** Tick isMedicalDeviceReport if device-related
→ drives MDR assessment
8. **CLICK** Click 'Save'
→ Row appears with status=OPEN; complaintNumber=COM-YYYY-NNNN

FIELDS CAPTURED

Field	Required	Validation / values	Notes
title	Yes	string	
description	Yes	multi-line	
complaintType	Yes	PRODUCT_QUALITY LABELING PACKAGING DELIVERY SERVICE SAFETY REGULATORY OTHER	
severity	Yes	CRITICAL MAJOR MINOR INFORMATIONAL	
source	Yes	CUSTOMER PATIENT REGULATOR DISTRIBUTOR INTERNAL FIELD_REPORT OTHER	
isMedicalDeviceReport	No	boolean	default false

4.3 Investigate (OPEN → UNDER_INVESTIGATION)

What it does	Capture investigation summary, root cause, assignee.
Menu / route	Complaint row · 'Investigate' button
Available to roles	any tenant user
Backend API	POST /api/complaints/:id/investigate

CLICK-BY-CLICK

1. **CLICK** Click 'Investigate'
→ Drawer opens
2. **TYPE** Fill investigationSummary
→ required
3. **TYPE** Fill rootCause
→ required
4. **CLICK** Pick assignedTo from user dropdown
→ required
5. **CLICK** Click 'Submit'
→ Status=UNDER_INVESTIGATION; investigationCompletedAt set

4.4 Link CAPA

What it does	Bridge to the CAPA-v2 workspace by creating an intake with sourceType=COMPLAINT.
Menu / route	Complaint row · 'Create CAPA' button
Available to roles	any tenant user
Backend API	POST /api/capa-v2/intakes (sourceType=COMPLAINT) · then PUT /api/complaints/:id (status=PENDING_CAPA, linkedCAPAIds += new id)

CLICK-BY-CLICK

1. **CLICK** Click 'Create CAPA' on the row
→ Drawer with CAPA intake fields
2. **TYPE** Fill issueStatement + issueDescription + severity
→ required
3. **CLICK** Click 'Create + link'
→ CAPA-v2 intake row created; linkedCAPAIds += new id; complaint status=PENDING_CAPA

4.5 Close

What it does	Close the complaint after investigation + (linked CAPAs) closed.
Menu / route	Complaint row · 'Close' button
Available to roles	any tenant user
Backend API	POST /api/complaints/:id/close

CLICK-BY-CLICK

1. **CLICK** Click 'Close'
→ Drawer with closureNotes + correctiveAction + preventiveAction
2. **TYPE** Fill closureNotes (required)
→ required
3. **TYPE** (Optional) correctiveAction + preventiveAction
4. **CLICK** Click 'Submit'
→ Status=CLOSED; closedAt + closedBy set

4.6 Cross-module · Regulatory assessment

What it does	Compute regulatory reporting required + flags + recommended deadline.
Menu / route	Complaint detail · 'Assess regulatory reporting' button
Available to roles	any tenant user
Backend API	POST /api/quality/regulatory-assessment

CLICK-BY-CLICK

1. **API** POST body = the full complaint object
→ Returns { requiresReporting, flags[], recommendedDeadlineDays, regulatoryBodies[] }

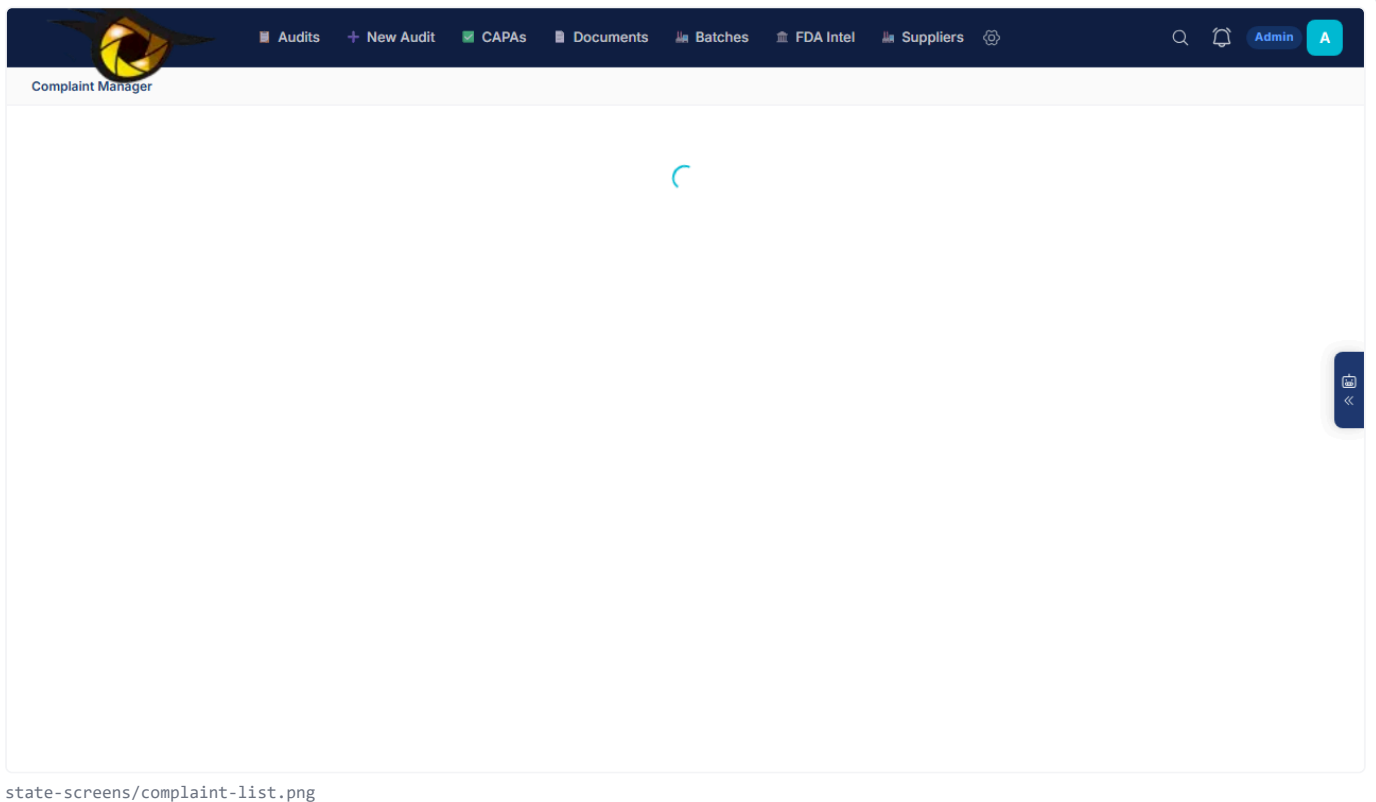

5. Full lifecycle walkthrough — one transaction, end-to-end

One complaint walked OPEN → UNDER_INVESTIGATION → CAPA-linked → CLOSED.

#	Persona	State transition	Action	API	Observed	Result
1	James Head of QA	– → OPEN	+ Log Complaint → 'Chipped tablets at customer' / PRODUCT_QUALITY / MAJOR / CUSTOMER → Save	POST /api/complaints	complaintNumber=COM-NNNN · status=OPEN	PASS

Expected DB state after this step:

```
complaints { _id, complaintNumber: 'COM-NNNN', title, description, complaintType: 'PRODUCT_QUALITY', severity: 'MAJOR', source: 'CUSTOMER', status: 'OPEN', reportedBy: james._id }
```

2	James Head of QA	OPEN → UNDER_INVESTIGATION	Click 'Investigate' → fill summary + rootCause + assignedTo=james → Submit	POST /api/complaints/:id/investigate	Status flips · investigationCompletedAt set	PASS
---	----------------------------	----------------------------	--	--------------------------------------	---	------

Expected DB state after this step:

```
complaints { status: 'UNDER_INVESTIGATION', investigationSummary, rootCause, assignedTo, investigationCompletedAt }
```

3	James Head of QA	UNDER_INVESTIGATION → PENDING_CAPA	Click 'Create CAPA' → CAPA-v2 intake created with sourceType=COMPLAINT → linked	POST /api/capa-v2/intakes · PUT /api/complaints/:id (linkedCAPAIds, status=PENDING_CAPA)	linkedCAPAIds += [intakeId]; status=PENDING_CAPA	PASS
---	----------------------------	------------------------------------	---	--	--	------

Expected DB state after this step:

```
capa-v2-intakes { sourceType: 'COMPLAINT', sourceRecordId: complaintId }
complaints { status: 'PENDING_CAPA', linkedCAPAIds: [intakeId] }
```

#	Persona	State transition	Action	API	Observed	Result
4	James Head of QA	PENDING_CAPA → PENDING_CLOSURE	(After CAPA close) PUT status=PENDING_CLOSURE	PUT /api/complaints/:id	Status flips	PASS
5	James Head of QA	PENDING_CLOSURE → CLOSED	Click 'Close' → closureNotes + correctiveAction + preventiveAction → Submit	POST /api/complaints/:id/close	Status=CLOSED · closedBy + closedAt set	PASS

Expected DB state after this step:

```
complaints { status: 'CLOSED', closureNotes, correctiveAction, preventiveAction, closedBy, closedAt }
```

6. AI assistance map

Each AI assist is a separate endpoint. Outputs flow through the grounded-generation runtime (citation gate, confidence floor, schema validation, accept/reject audit trail).

AI agent	Attached to state(s)	Endpoint	Where in UI	What it returns	Provider
(roadmap) Complaint triage agent (Wave 3)	OPEN	(future)	(future)	Pattern-match complaint text against historical CAPAs + FDA MedWatch to pre-suggest severity, MDR reportability, and linked CAPAs	Free Gemini + vector retrieval
Cross-module Regulatory Assessment	OPEN	POST /api/quality/regulatory-assessment	(API; UI on roadmap)	Returns requiresReporting + flags + recommendedDeadlineDays + regulatoryBodies	rule engine (no LLM)

7. Regulator-trace matrix

For each lifecycle state, the specific clauses + evidence Hawkeye captures so an inspector can audit the record. Maps to FDA / ISO / ICH / EU GMP source clauses.

State	Cited clauses	Evidence captured	Backing records
OPEN	21 CFR 820.198(a) 21 CFR 211.198(a)	complaintNumber + title + complaintType + severity + source + reportedBy	complaints
UNDER_INVESTIGATION	21 CFR 820.198(d)	investigationSummary + rootCause + assignedTo + investigationCompletedAt	complaints
PENDING_CAPA	21 CFR 820.198(c)	linkedCAPAIds[]	complaints + capa-v2 (linked)
CLOSED	21 CFR 820.198(e) 21 CFR 211.198(b)	closureNotes + correctiveAction + preventiveAction + closedBy + closedAt	complaints

8. Test results matrix

Suite	Scope	Result	Evidence
eqms-lifecycle.spec.ts · complaint	OPEN → UNDER_INVESTIGATION → PENDING_CLOSURE → CLOSED	PASS	4/4 PASS · eqms-test-results-v2.pdf
eqms-cross-module.spec.ts · F3	Complaint → CAPA-v2 intake (sourceType=COMPLAINT) → linked → close	PASS	5/5 PASS · F3

9. Known gaps + roadmap

- **AI complaint triage agent** — Pre-suggest severity, MDR flag, similar past CAPAs. **HIGH**
- **MDR / FAR deadline countdown UI** — Visible counter on the row when requiresRegulatoryReporting=true. Email reminder at 80% elapsed. **HIGH**
- **FDA MedWatch eMDR submission integration** — Programmatic 3500A submission API. **MEDIUM**
- **Customer notification template** — Closure notes auto-formatted into a customer-facing letter. **LOW**
