

One **configurable engine.** Many compliant industries. Marketplace by design.

Most QMS vendors built one product per industry. We built the engine that produces them — and because every step is verifiable, the platform naturally becomes a trust marketplace.

WHY HAWKEYE IS DIFFERENT

01 · ENGINE

A platform, not a product

Workflow + role-gates + AI-hooks + audit-trail are **configuration**, not code. Add a vertical in weeks.

vs MasterControl · Veeva · Sparta — all per-product

02 · AI NATIVE

31 agents wired in

Drafters · classifiers · predictors · public-data fusers · all **grounded + audit-trailed** from day one.

vs incumbents — AI is an add-on retrofit

03 · PLUGGABLE LLM

Free Gemini default

\$0 AI cost to the tenant out of the box. Switch to OpenAI / Anthropic / on-prem per-tenant.

vs incumbents — token cost passed through

04 · MARKETPLACE BY DESIGN

Trust = no middleman

Every workflow step is signed + hashed + logged → cross-company trust ships native, marketplace settles on it.

vs incumbents — single-tenant silos

THE ENGINE — CONFIGURABLE LAYERS, MULTI-TENANT, MULTI-VERTICAL

INDUSTRY PACKS

Configuration, not code

Pharma EQMS · Med Device · Food / HACCP · Auto IATF · Aerospace · ESG · Construction · ... drop in a YAML, ship a vertical

AI AGENTS

31 agents · grounded · pluggable LLM

Wave 1 inline assists · Wave 2 cross-module · Wave 3 governance · audit-agents · public-data fusion

TRUST

Verifiable everywhere

21 CFR Part 11 e-sig · SHA-256 content hashes · ALCOA+ audit trail · blockchain anchoring on roadmap

WORKFLOW ENGINE

State machines · role-gates · approvals

Universal workflow definitions · milestones · SLAs · cross-tenant routing — the core IP

PLATFORM

Multi-tenant SaaS · serverless

MongoDB Atlas · Vercel · 92 routes · 165 models · per-tenant module flags · 7 normalised roles

AI · THE UNFAIR ADVANTAGE

31

Production AI agents

5-Why · CAPA RCA · Predictive CAPA · Supplier Intel · Audit Prep · Auditor Coach · MRM Populator · Risk Brainstormer · Reg Impact · Drift Monitor · Signal Detector...

\$0

Default AI cost

Free-tier Gemini Flash-Lite is the default LLM. Tenant pays nothing for AI. Switch to paid model when needed — pluggable.

5

Public-data feeds

openFDA · FDA Warning Letters · 483s · EMA EudraGMDP · WHO PQ — fused into supplier intel + audit prep agents.

100%

FDA Jan-2025 ready

Every AI decision logs prompt-version + retrieval-set + provider + accept/reject outcome. Grounded generation gates citations + confidence.

WHY IT BECOMES A MARKETPLACE, BY DESIGN

1

Configure workflow

Engine outputs a state machine + roles + AI

2

Every step verifiable

Signed · hashed · timestamped · ALCOA+

3

Cross-company trust

Marketplace settles on the verified record

ENGINE VS INCUMBENTS

PAGE 2 · LIVE PROOF OF THE ENGINE

Pharma EQMS — pack #1, fully shipped

Built in 12 months on the engine. 14 modules · 31 AI agents wired · 105 features click-by-click · live multi-tenant SaaS · 58/0 lifecycle PASS/FAIL on free-tier Gemini.

Public data fusion (FDA / EMA / WHO)
